

APL AUCTION

1.1 Secret Bidding of IPL Teams

- 20 Crores will be allotted to the 15 teams and they'll place their bid silently to us.
- The team with the highest and unique bid will win (For example, if 3 participants bid 20 Cr., 2 participants bid 18 Cr. and 1 participant bid 19 Cr., the one who bid 19 Cr. will win)
- The remaining amount can be utilized to bid other players

1.2 Player Bidding

- Participants will be allotted 60 Crores.
- Participants bid for the player they want.
- Some key players have to be directly bought from their managers.
- Players are ranked out on their performance based on the past 3 years.

Rules:

- Participants have to bid exactly 11 players to qualify.
- A team should consist of at least 1 wicket-keeper, 4 bowlers, 1 all-rounder, 3 batsman.
- Exact 4 foreign players (consisting of min. 1 associate nation player) should be there in a playing XI.
- At a particular point of time only two teams can bid, the other teams can join as and when one of the teams back out.
- The time allowed to think after the last bid would only be 8 secs, post which the player would be sold to the last bidder.
- The auctioneer wouldn't entertain any bid for a particular player only after he says the word SOLD.
- The decision of auctioneers would be final and no arguments against them would be entertained.
- The selection of the lists would be done on a random basis through chit picking (further explanation on the same would be provided)
